World Café Questions

As Institutions, (Questions for Alliance building)

How can we support inter-university collaborations to maximize resources and development?

What actions might we take as CSL practitioners to transform our current economic climate?

As Individuals, (Questions for Professional Development)

In your work what experiences have been helpful, what inspired you and very concretely how can we build on this? How can we cultivate the ideas and knowledge we have?

How can we, as community service learning practitioners recruit and an engage faculty members? Students? Community members?

As a Network, (Questions for Strengthening the Network)

What are some of the ways that we can work together to keep connecting and strengthening people's work?

What do we need to communicate to forward the CSL agenda? To whom does this need to be communicated?

Last Ten minutes each table has the same conversation

What is the most important next step to take as a Network?
